The Radio HF Internet Newsletter is distributed monthly, free of charge, to subscribers by e-mail. The Newsletter is a collection of web sites specifically related to radio (AM/FM, shortwave, Internet radio, amateur radio, scanning and CB), communications, telecommunications, radio memorabilia and collectibles, media, journalism, science, technology, space and astronomy, weather, transportation, plus some fun things thrown in for good measure! Each edition includes links to web sites submitted by subscribers or by the editor. All sites are reviewed, verified and presented to you, with the URL, and a brief description of each site.

The Newsletter arrives in your in-box as an easy to read e-mail as well as an attached PDF version, with no fear of viruses. The subscriber list is secure, private and confidential. It will never be sold, redistributed or displayed.

Subscribers are encouraged to submit web sites for inclusion in future editions of the Newsletter. All contributors whose sites are published will receive a 2% discount on their next purchase from Radio H.F. The e-mail address for all contributions, comments, and subscription requests is hfnewsletter@yahoo.com mailto:hfnewsletter@yahoo.com

Welcome to the December 2016 issue the Radio HF Newsletter.

It’s time to wrap up our 18th year of publication of the Radio HF Internet Newsletter. 2016 has gone by very quickly, not to mention though just how fast 18 years of this Newsletter have flown by. Thanks to all of those who have contributed to the success of this Newsletter over the years.

I, together with my wife Darlene, wish to extend our sincere best wishes to all of the Radio HF Internet Newsletter subscribers, your families and friends around the world for a very Merry Christmas, and a happy, safe and healthy 2017. We also wish those of you who celebrate other special holidays at this time of year all the best of the season.

As we enter the holiday season, it has become a seasonal tradition of mine to share my two favourite Christmas videos with you.

WHITE CHRISTMAS – THE DRIFTERS

From 1954 the Drifters recorded the classic White Christmas featuring Bill Pinkney on lead bass and Clyde McPhatter on tenor. Joshua Held created this gem of a cartoon to accompany the song
http://www.youtube.com/watch?v=Ooc5eJc5SHA http://www.youtube.com/watch?v=Ooc5eJc5SHA

HARDROCK, COCO & JOE

This clip is Hardrock, Coco and Joe. It’s a short stop-motion animated cartoon, based on a song written by Stuart Hamblen, about three of Santa Claus' helpers. It has become an annual "Christmas Classic" since its introduction in the mid 1950s. Its full title is Hardrock, Coco and Joe - The Three Little Dwarfs. It was created by Centaur Productions utilizing the stop-motion talents of artist Wah Ming Chang. Ever since discovering this cartoon, I have shared it with thousands of people. Most of them hate me for it! I personally think it’s kind of creepy. Just freeze-frame on Santa. He is one scary dude! And that song…what can I say. It will get into your head and rot your brain! Share this with a friend and they’ll end up hating you for it as well. BEWARE, click on it if you dare!

Our Monthly Special Zone for December includes web pages on Human Rights Day, International Migrants Day, Christmas, Hanukkah and Kwanzaa.

This month’s virtual voyage around the world, in the “Where in the World Zone”, takes us to East Asia to Macau. Officially the Macao Special Administrative Region of the People's Republic of China, it is an autonomous territory on the western side of the Pearl River Delta in East Asia. Macau is bordered by the city of Zhuhai in China to the North and the Pearl River Estuary to the East and South. Hong Kong lies about 64 kilometres (40 mi) to its East across the Delta. With an estimated population of around 647,700 living in an area of 30.5 square kilometers, it is the most densely populated region in the world.
Macau was administered by the Portuguese Empire and its inheritor states from the mid-16th century until late 1999, giving cause to Portuguese and Cantonese being their two official languages.

Please share some of your favourite websites with us. I’d be happy to include them in a future edition of the Newsletter. Let’s move on with this month’s edition.

VIA Sheldon Harvey, Greenfield Park, Quebec

Formed by a small group of dedicated radio amateurs and experimenters nearly a century ago, The Radio Club of America would soon count among its membership the very best in the Radio Communications Industry. Edwin Armstrong, David Sarnoff, Louis Hazeltine, John V. L. Hogan, Paul Godley and Allen B. DuMont, to name just a few - these were pioneers who would shape the industry. Today the Club is composed of modern pioneers, advancing the field of Radio Communications in ways undreamt of on that January day in 1909, when the first meeting of The Radio Club of America was called to order.

INDICATOR LOOPS

http://indicatorloops.com/ http://indicatorloops.com/

VIA Jerry Proc, Toronto, Ontario

This is the home page for the anti-submarine magnetic indicator loop research project. Indicator Loops are long lengths of cable laid on the seafloor of harbours to detect enemy submarines. They were developed by the Royal Navy in the early 1900s and first trialled at the end of WW1. They were then successfully deployed in WW2 in British ports both at home, in the Dominions (Australia, Canada, New Zealand, South Africa, Kenya, Ceylon, Penang) or in allied harbours (Iceland, Holland, Dardanelles). By 1942 the United States had adapted this technology for its own needs.

For all the daily use of computers now in and out of the radio hobby, I find there are still some things that are still better done by bringing pen to paper. Since I was first licensed in 1976, I have made use of The ARRL DXCC List as a simple and reliable tool to keep track of my movement to DXCC and beyond. My various editions of this short book cover my path to 10, 15 and 20 meter DXCC as well as Mixed, Phone and CW Awards. As I write this I am just a few short on 40 and hoping this Winter season will let me really fill in the log for 80 Meters DXCC. Having a handy list of current DXCC Entities where I have marked off those I have worked and those who have QSLed makes it easy to go hunting for the ones that are not in my log. It is a great tool for playing “Hunt and Pounce” during DX Contests. If you hope to hang that Wallpaper that every ham admires, you will want a copy of The ARRL DXCC List at your operating desk.

Available in the US from the American Radio Relay League and in Canada from Radio HF
